Summary

As a dedicated junior software developer, I played a pivotal role in the development of a groundbreaking e-commerce platform, optimizing database performance by 40% and consistently exceeding project milestones, proving my ability to thrive in collaborative environments and make a measurable impact.

Seeking a Junior software developer position in a dynamic and fast-paced environment where I can utilize my technical skills, creativity, and passion for coding to contribute to the success of a company.

- Proven track record of professionalism and maintaining a welcoming environment
- Established track record of maintaining strict confidentiality
- Proven track record of improving efficiency and profitability.

Experience

Web Developer

Sammy J Hospital • Nsukka, Enugu

12/2022 - Present

- Developed a responsive and user-friendly website for Clint Hospital, a healthcare institution serving a diverse clientele.
- Collaborated closely with the client to gather project requirements, understand their specific needs, and translate them into technical specifications.
- Designed and implemented the website's user interface, incorporating a modern and intuitive layout for easy navigation.

Web Developer

Chinedu Ezeokoye • Aberdeen, Scotland

03/2023 - 03/2023

- Utilized web development technologies such as HTML, CSS, JavaScript, and framework (e.g., Django) to build a secure and feature-rich online store.
- Conducted rigorous testing and quality assurance to identify and resolve any issues, providing a bug-free and reliable shopping experience for customers.
- Trained Clint's staff on how to manage product listings, process orders, and maintain the website's content.
- Successfully delivered the project within the agreed timeline and budget, resulting in a fully functional and revenue-generating e-commerce website for Clint.

Software Engineer Intern

Interra Networks Ltd • Abuja, FCT

12/2021 - 11/2022

- Collaborated with cross-functional teams to identify and resolve technical issues
- Assisted in the development of software testing and deployment processes
- Contributed to the development of software documentation and user manuals
- Participated in code reviews and contributed to the development of coding standards
- Collaborated with the UI/UX team to enhance the user experience and create responsive web designs.
- Conducted code refactoring and implemented best practices to improve code quality.
